Introduction

Crafito is a specialized and well-crafted theme for e-commerce industry. It is developed mainly for e-commerce industry. It provides numerous snippets with various possible options for customizing store and providing an attractive look & feel. Crafito has inbuilt apps like Advance Mega Menu & Custom Product Image Gallery for admin to represent the products and its categories & subcategories effectively.

Benefits of Crafito Odoo Theme

- Many snippets are provided with various possible options for customizing store and providing an attractive look & feel.
- It has many inbuilt apps like Advance Mega Menu and Custom Product Gallery to represent product's categories and subcategories.

Pre-requisites

- Following points must be followed before starting the plug-in installation:
 - You should login as an Admin in Odoo.
 - Check that your Odoo Instance is compatible for Crafito Theme.
 - An e-commerce module should be present in your instance to use this theme.

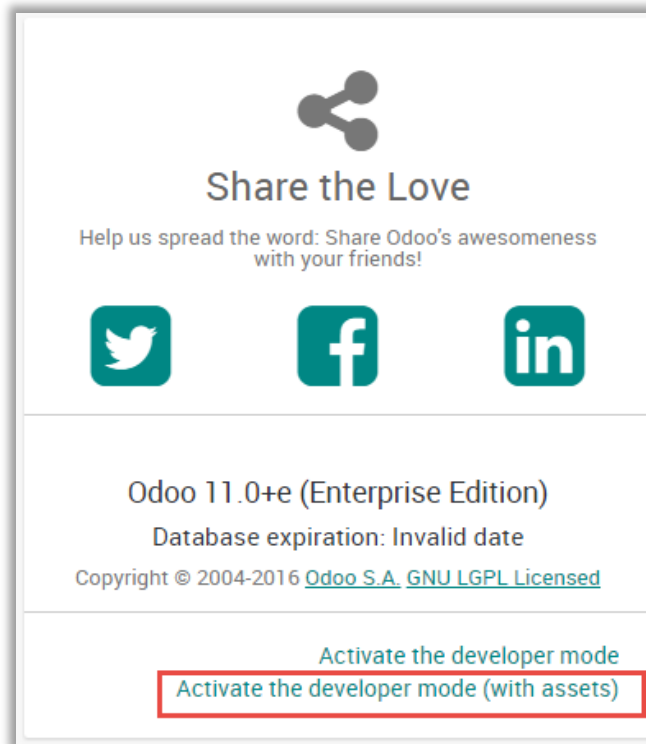

Note: Crafito Theme v11's all new features are not available in v8, v9 and v10.

Installation

Installation Steps

- Download and extract the zip file.
- Check your Odoo add-ons path.
 - It should be same as defined in Odoo Config file.
 - Config files are mostly saved in /etc folder. For e.g. /etc/odoo.conf
 - **Open Config file:**
 - Give the command: `sudo/etc/odoo.conf`
 - Config file content: `addons_path = /opt/odoo/addons`
- Open Terminal and go to download location
 - For e.g. if the download location path is: /home/odoo/Downloads then the command to be written in the terminal would be: `cd/home/odoo/Downloads`
- Copy download modules to addons path
- Give the below mentioned commands to perform copy operation:
 - `$cd /home/odoo/Downloads/theme_crafito`
 - `$cd v11`
 - `$sudo cp theme_crafito /opt/odoo/addons`
- Restart Odoo server
- Login with the admin credentials in your odoo instance.

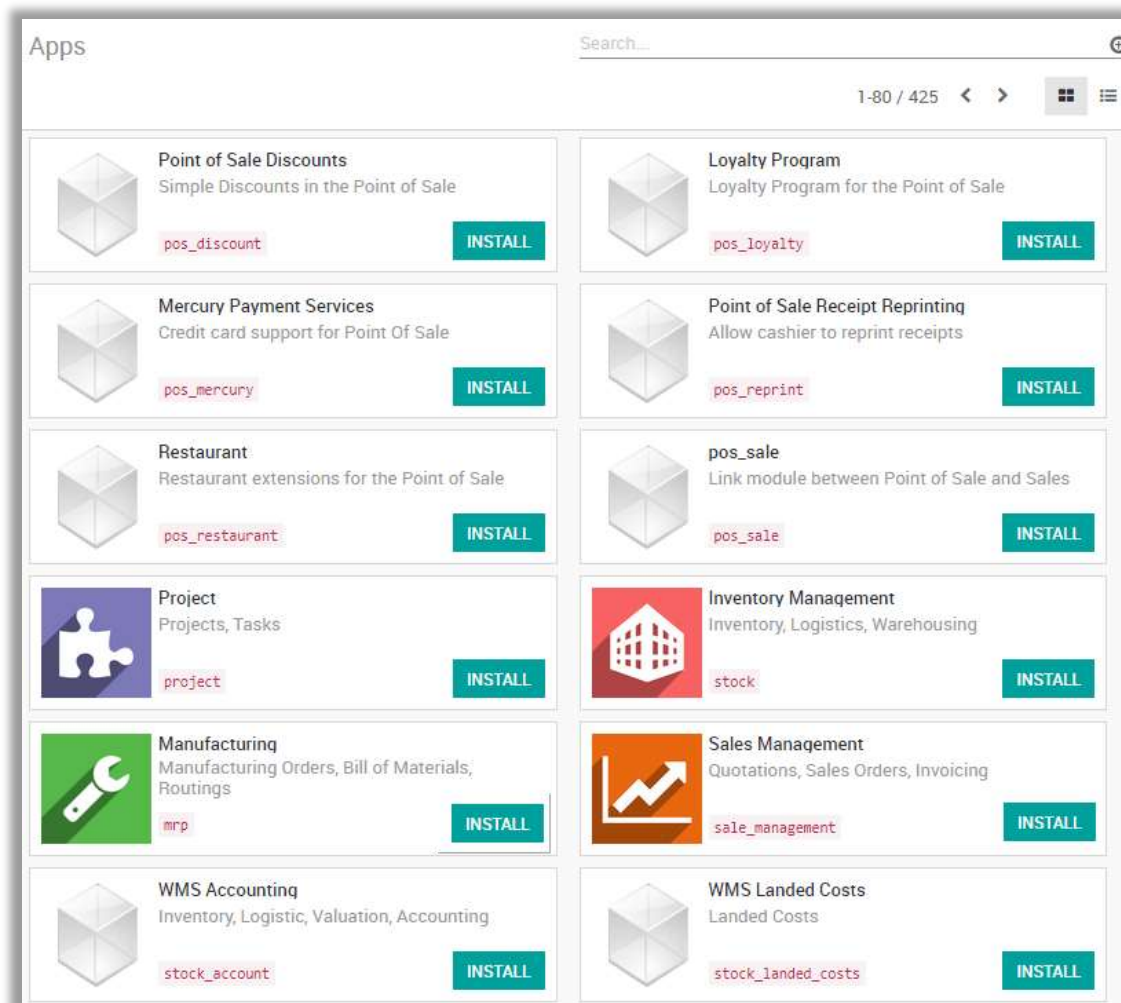

- Activate the Developer Mode
 - To activate Developer Mode, Go to **Settings -> Activate the developer mode (with assets)**. Click on '**Activate the developer mode (with assets)**' and developer mode will be activated.

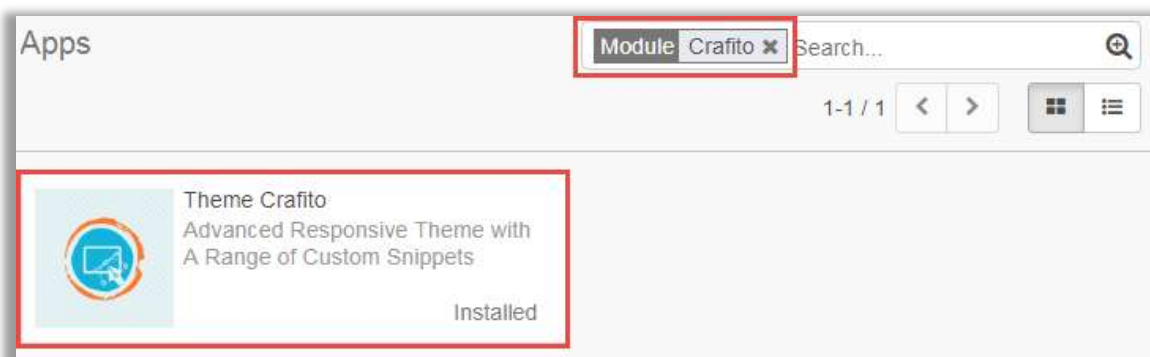

- Go to Settings/Update Apps List.
 - Click on '**Update**' button.

- Go to Settings/Apps
 - Remove search filter

- Enter module name in the search box provided in the top right corner of the page. For e.g. here write "Crafito".
- Click on 'Install' button.

Access Rights Management

- Now after installing the theme, to manage the access rights of users go to **Settings -> Manage access rights**.
- By clicking on it you will be redirected to the Users module. Thereafter navigate to the detail page of the particular user for which you want to manage the access rights.
- Now under '**Access Rights**' tab from '**Website**' dropdown list select the '**Editor and Designer**' option to let the particular user modify the '**Slider Configurations**'.
